About Justin's Place Recovery Program

Justin's Place is named in honor of Justin Holecek. Justin graduated from St. John Neumann High School in 1997, and from the University of Florida in 2002. He was an intelligent young man with a wonderful personality, but suffered from the disease of alcoholism. After years of abuse, Justin died on September 18, 2009 at the age of 30. It is our prayer that Justin's Place will continue to provide recovery in a structured, spiritual manner to people who reach out with a strong desire for a new beginning and a life free of addiction.
